

As a professional designer I sell business brands and not just logos! I worked very hard at obtaining an education to be able to provide my clients (you) with the best quality work that you expect! My services are not the cheapest option for sure as you can have someone provide a design that's from clip art or inspired from outside resources, but you can understand that I must be able to put food on the table so I'm unable to work for free. That being said let's discuss the plans I offer. Also if you would like to see some of my website designing skills, pop on over to my online portfolio website at <http://www.amungin.com> . Please take a look at my plans listed below. If you have more questions about the services, please feel free to take a look at my website <http://www.amungin.com/services> where a detailed description is provided for each service. Since the logo is complete, half of the payment is required to finish the branding for the business. Please don't hesitate to reach out with questions!

Payments

Cash would be an option with you being a local client. I would be willing to meet you in person!

Digital Payments

I accept digital payments from either of the companies listed here. I have provided the QR codes below as well
